

### Description and characteristics

- Waterproof box for surface installation.
- With pre-insulated walls
- Metal screws.
- Sealants
- Gray (RAL 7035).

### Dimensions

### Specifications.

- Directive 2014/35/UE 
- Directive 2011/65/UE (RoHS)
- Applicable standard EN 60 670-1

### Technical data:

- Fire resistance (glow wire test 650°C).
- Heat resistance (ball pressure test 70 ° C).
- Dimensional stability -5°C a +60°C.
- Degree of protection against penetration of solids and liquids: IP 65..
- Degree of protection against impacts: IK08.
- Insulating material free of halogens
