

Flush connection box. 200 x 160 mm Cover with screws.

Flush connection box. 200 x 160 mm Cover with screws.Depth 70 mm. 18 inputs for Ø 40 mm tube. One partition wall.  
Common applications: Indoor domestic / tertiary environment (Interior of home, offices, shops, etc.)

Features

|                                                 |                           |
|-------------------------------------------------|---------------------------|
| Enclosure type                                  | Connection and derivation |
| Installation method                             | Flush in work             |
| Use                                             | Domestic / Tertiary       |
| Location type                                   | Inside                    |
| Dimensions inside (mm) (Width x Height x Depth) | 200x160x70                |
| Case material                                   | Insulation                |
| Case color                                      | Black                     |
| Cap color                                       | White                     |
| No. of inlets and size (mm)                     | 18xØ 40                   |
| Lid closure system                              | Metal screw               |
| Possibility of mounting DIN rail                | Yes (not included)        |

Technical data

|                                 |          |
|---------------------------------|----------|
| Impact shock resistance         | Medium   |
| Insulation class                | Class II |
| Fire resistance (GWT)           | 650°C    |
| Heat resistance (Ball pressure) | 70°C     |
| Work stress                     | 400 Vca  |
| Free of halogens                | Yes      |

Regulations

|                                                                     |                 |
|---------------------------------------------------------------------|-----------------|
| CE marking                                                          | Yes             |
| UK marking                                                          | Yes             |
| CMim marking                                                        | Yes             |
| According to Regulations UNE/EN                                     | UNE-EN 60670-22 |
| According to REBT                                                   | Yes             |
| According to European Directive 2014/35 / EU. Low voltage directive | Yes             |
