

Flush socket 2P+E, 16A 250V~. IP67

Flush socket 2P+E, 16A 250V~. IP67  
Common applications: Industrial environments (factories, warehouses, etc.)

Features

|                               |                        |
|-------------------------------|------------------------|
| Type                          | Tracking base (Schuko) |
| No. of poles                  | 2P + T                 |
| Type of terminal connection   | Screw connection       |
| Earth position                | 6h                     |
| Frame for Indubox             | MR1360B                |
| Nominal current               | 16A                    |
| Nominal voltage               | 230V                   |
| Color                         | Blue                   |
| No. and basic characteristics | SV000384               |

Technical data

|                                 |                |
|---------------------------------|----------------|
| Protection Degree (IP)          | IP67           |
| Protection Degree (IK)          | IK09           |
| Impact shock resistance         | Strong         |
| Insulation class                | Class II       |
| Fire resistance (GWT)           | 850°C          |
| Heat resistance (Ball pressure) | 125°C          |
| Dimensional stability           | -25°C -> +80°C |
| Free of halogens                | Yes            |

Regulations

|                                                                     |     |
|---------------------------------------------------------------------|-----|
| CE marking                                                          | Yes |
| CMim marking                                                        | Yes |
| According to REBT                                                   | Yes |
| According to European Directive 2014/35 / EU. Low voltage directive | Yes |

Sustainability

|                                                   |                                  |
|---------------------------------------------------|----------------------------------|
| According to European Directive 2011/65/UE (RoHS) | Yes (Complies with UNE EN 50581) |
|---------------------------------------------------|----------------------------------|
