

Extra flat plug 2P+E 16A 250V~. White colour.

Extra flat plug 2P+E 16A 250V~. White colour.Easy connection access. Folding handle. With double earth system.  
Common applications: Indoor domestic / tertiary environment (Interior of home, offices, shops, etc.)

Features

|                                            |                  |
|--------------------------------------------|------------------|
| Material                                   | Thermoset        |
| Type                                       | Plug             |
| No. of poles                               | 2P + T           |
| Type of terminal connection                | Screw connection |
| Nominal current                            | 16A              |
| Grounding                                  | Double system    |
| Folding cable tie to facilitate connection | Yes              |
| Handle                                     | Yes              |
| Nominal current                            | 16A              |
| Nominal voltage                            | 250V~            |
| Color                                      | White            |

Technical data

|                                 |           |
|---------------------------------|-----------|
| Fire resistance (GWT)           | 650/750°C |
| Heat resistance (Ball pressure) | 70/125°C  |
| Free of halogens                | Yes       |

Regulations

|                                                                        |                       |
|------------------------------------------------------------------------|-----------------------|
| CE marking                                                             | Yes                   |
| CMim marking                                                           | Yes                   |
| According to Regulations UNE/EN                                        | UNE 20315-1-1<br>-1-2 |
| According to REBT                                                      | Yes                   |
| According to European Directive 2014/35 /<br>EU. Low voltage directive | Yes                   |

Sustainability

|                                                       |                                  |
|-------------------------------------------------------|----------------------------------|
| According to European Directive<br>2011/65/UE (RoHS)  | Yes (Complies with UNE EN 50581) |
| According to European Directive<br>2012/19/UE (RAEE2) | Yes                              |
| ECOEMBES                                              | Yes                              |
